

2013 Montana 34 ft 5th Wheel

Brand:

Availability: In Stock

Short Description

This trailer is on a flat, semi shaded site in our adult area, near the back of our campground.

One of the first things you'll notice is that this 5th wheel trailer is in great condition, has high ceilings throughout, appears almost new and the layout makes so much sense.

Whoever gets this trailer will likely love the kitchen which has a centre island with double sinks, a stove top & oven, microwave & a large double door RV fridge.

If or when preparing meals while entertaining family or friends, you can easily participate in the conversations as the kitchen is centrally located between living and eating areas. There's a nice dining table with extension with 5 chairs which each have storage under the seats.

After lunch or dinner, sit and relax, watch TV or nap on one of the two comfortable recliners that can go back to almost a full 180 degrees. The main floor living area also has a sofa bed, a computer desk & ceiling fan.

Just up a few stairs, there's a large bedroom with a queen size bed on platform that lifts for storage underneath. There's space on both bedsides to easily get in or out of bed, a large clothes closet, spacious shower, sink & (new) toilet.

Notable features include ample storage drawers and cupboards throughout. A 10 gallon water heater, factory tinted double pane windows, 4 slide-outs with tonna covers, ceiling

vents/fans with rain sensors, two large storage compartments. The awning has a new motor. Roof has recently been resealed. There's a roof-top satellite finder.

Garden shed, decking, & BBQ included.

All this can be yours for \$29,900. or best offer.

If you're interested please contact Susan Lawson for additional information & or an appointment to view the trailer at 905 659-3395 or email susanlawson@lawsonpark.ca
